OBJECTIVE

Using power of the Web enabling people and making their business grow, one Site at a time.

SUMMARY

- </> To be part of a team-oriented, reputed organization, where my experience & skills can benefit the growth of the company and my career.
- </> A seasoned IT professional with **5.5 years** of rich experience in Web Development. Currently working as a **Senior Front End Developer** at **ICF Next**, Bengaluru.
- </> Over 2+ years of experience with **React** framework & 5+ years experience with **jQuery** based frameworks using **Javascript ES5/6**, **CSS3** and **HTML5**
- </> Ability to develop User Interface using the latest front-end technology from **Scratch** to **Production** optimized code by following the best practices that scale over small to large devices.
- </> Architected, Developed, Revamped and been a Guardian for all front-end activity for the most **business-critical, transactional-based** largest **aviation** site - **www.goindigo.in** (India's most preferred Airline)
- </> Professionally, Developed and supported over 25+ popular websites like **www.kotak.com**, **www.payback.in**, which are of different domains with different tech stacks, meeting the - required standards, interaction and style guides with great pixel accuracy.
- </> Been a key person for coordination with the client - Product Team, Design Team, B.A and in-house Developers
- </> Trained freshers and guided other developers on various topics to resolve daily challenges on UI & Performance
- </> Personally, Worked as a full-stack developer using the latest frameworks for the Railway based project where I solely **Designed, Developed, Deployed, Marketed** and **Home Delivered** a full-size Wall Calendars by building mini e-commerce using the database, social login, payment gateway and a logistics agency for shipping. More than 100+ copies were sold.
- </> Good knowledge on DevOps strategy, web-servers, caching, domain, website hosting, CDN
- </> Hands-on with Image-based, Video-based, Audio-based tools like Photoshop, Illustrator, Premiere Pro, After Effects, Audition for Designing content, Editing footages and Post Processing.
- </> Have been curious about things happening behind websites, since school days - from the year 2005 when I started exploring and building sites using vintage website builders like Microsoft FrontPage, Swish and Macromedia Flash

ACHIEVEMENTS

- </> Recognized by the client **Indigo** was **awarded** for the immense contribution and value add.

DETAILED SKILLSET

CONTENT : [Templating with semantic HTML5 markup](#), [Forms](#), [W3C Standards](#)

PRESENTATION : [CSS3](#), [Responsive Web Design](#), [Flex](#), [Transforms](#), [Animations](#), [Filters](#), [Typography](#), [Font Icons](#)

PERSONAL PROJECTS

www.railizm.com

Connecting ardent train lovers. Railizm is a group of Railway enthusiasts. With the platform of Railizm we seek to bring some tangible and memorable pleasures of our hobby related to the Railways of India. Railizm believes in connecting Railway admirers, passionate hobbyists, those filled with curiosity about Railways and the mused and amused ones.

www.belaku.org

"BELAKU SHISHU NIVASA" houses the orphan, destitute and poor children with an aim to provide them shelter, food and education. With the help of well-wishers, donors and supporter, Belaku has now come a long way from where it started and grown into a bigger organisation housing more kids, in a decade of serving society.

www.urakar.com

UCO BANK RETIREES' ASSOCIATION is the first ever Retirees Organisation in UCO Bank, conceptualised in 1992 itself by a few visionary and far sighted officers by our UCO Bank Officers' Association in Karnataka, has grown into a huge tree today.

<https://pramathsb.github.io/waste-management/>

A freelance project made for Schools and Institutions where children are educated about - waste management in an interactive way which runs on Tablet Devices.
